

Plastic Awareness programme- 22 and 23 March 2025.

The Department of Chemistry at Mother Teresa Women's University, Kodaikanal, conducted a two-day extension activity on "Plastic Awareness" for its II-M.Sc. Chemistry students. On March 22, 2025, the program commenced in Attuvampatty, where students disseminated crucial information regarding the adverse effects of plastic to local residents and shopkeepers. The initiative aimed to educate the community on the environmental hazards associated with plastic usage. Subsequently, on March 23, 2025, the awareness campaign continued in Mattupatty. Students delivered comprehensive presentations highlighting the detrimental drawbacks of plastic consumption. The program emphasized the harmful impacts of plastic waste and actively promoted the adoption of eco-friendly alternatives, such as reusable bags and containers, to foster sustainable practices within the community.
